UK Students Should Attend New Founders' Day Program

at the annual Founders Day program in Memorial Coliseum. UK students should be present at the of the University.

In the past, the programs which have been planped for this event have not been very inviting to the students. They have consisted of speeches which too often were long and doll. A program of this kind could not be expected to draw a large ur interested crowd. Needless to say, there were many vacout seats in the Coliseum.

Last year, the Founders Day Committee decided to try a new approach. The new approach was increased student participation on the program. The plan worked very well and those who attended expressed their approval of the new venture.

This year, the program will be a dramatic presentation portraying the leading events of the lives of Dr. Robert Peter and Dr. Thomas Hont Morgan. The dramatization will be enacted by UK students with mosic by the University Symphony Orchestra and the University Choristers. Various student organizations are planning and sponsoring the program. It is important to note that the entire program and the work behind it is being performed by the student body itself.

In future editorials, Dr. Massie will outline the cost of building and maintaining a of money for this purpose.

To build and maintain a medical school at the University of Kentucky will cost enough in effort, time and money to make all of us ask and demand answers to the questions;

- 1. Is it needed?
- 2. Is any other way better? What will it cost?
- Where will we get the money?

The number of doctors in this state has been falling from more than \$500 in 1910 to 2300 in 1950 while the population during these years has

Ruby's Rabid Raving Increases UK Spirit

Coach Blanton Collier's reception by some 3,000 UK students here last week reminded a lot of people of a growing leeling of something known as school spirit. And, starting from there, a lot of students have begint to wonder just what is behind this renewed spirit. There was a time when nothing short of a football victory over Tennessee could touse a yell. Now, a new, relatively unknown man comes in to take over as new head football coach -and is greeted with unparalleled cuthusiasm. Why?

More than any other factor, the rabid rontings of a couple of men on the staff of the Louisville Conrier-Journal have drawn the student's attention to UK's athletic program. Earl Ruby, for bustance, has what approximates a morbid fascination in juggling the lights around until he can show UK sports up in a had color.

Coach Adolph Rupp has already received more than his share in the way of some pretty lonsy sports writing, deliberately slanted to make UK look like the great granddaddy breeder of poor sportsmanship. Any day that the almighty sports page of the C-J misses a chance to pour out some bitter bile against UK, usually via Ruby's column, is a rare day indeed. These rantings and ravings, bowever, have been like a shot of adrenelin to the spirit around here. In a way, the situation is comparable to a prize fighter telling Jack Demsey, in the ring, that his restaurant is lousy. As might be expected, the reaction to such babbling rot is a desire to do even better next time.

Critic Commends 'Round Table,' Pans Godfrey's Latest Antics

By LESLIE MORRIS

After several false starts, CinemaScope has definitely arrived with M-G-M's lavish production-incolor, "Knights of the Round Table," After "The Robe" had been perpetrated, and a comple of mediocre follow-ups, it remained for the Culver City globetrofters to borrow the medium of Strongman Zanuck-and-yes-men and use it as it was meant to be used.

The gang at Metro, past masters at splashing the screen with color and spectacle, kept the nucleus of their troupe in England after the filming of "Ivanhoe," and went right to work on the tales of King Arthur and Sir Lancelot, and the era of the Round Table ininuriatized by Sir Thomas Malory.

Lancelot, and Mel Ferrer scores as a youngish King Arthur. Most of the scenes are filmed on hallowed ground, and the whole picture takes on a realism and splendor that would hardly have been possible on a California sound stage.

But while we're patting Nature on the back, we should also say a few kind words for the mortals for the fearless director who decided to pull the phish carpets and tapestries out of the castle Camelot, and show a eastle as it was really sopposed to look back when-a trifle dingy and cold.

The entire Cinemacrew, in fact, exhibited remarkable restraint in the making of this epic, even breed. though there are a few fantastic skirmishes. There's surely enough action and gore to satisfy any audience, and a minimum of the exposition that drag its armor toward the end.

Favette County Medical Society of Maureen Swanson plays the Lady Elline in Jean homes and dog-houses. For shame,

Simmonsey fashion, and we'd like to see more of her-figuratively speaking. The only false note is rmig by Anne Crawford and Stanley Baker, as the villainous duo. Morgan and Modred-who overplay miserably, leering and sneering until they become comic arche-types. We also found the innocentbecause-our-hearts-are-pure affair between Lancelot and Guinevere a little unbelievable and chunsv.

But all in all, "Knights of the Round Table," now playing at a local theatre, is a worthy adaptation of the Arthur legend and CinemaScope in the grande manner. And none too soon after the two pathetic attempts which preceded it: "King of the Khyber Rifles" and "The Command."

The former was ruined by miscast Terry Moore and balf-caste Tyrone Power, and an overabundance of stilted dialogue and swirling sand. Guy "Buflalo Bill" Madison, second only to Miss Moore as a bum Robert Taylor, the perennial knight-in-mail, plays thespian, seemed lost without "Jingles" Devine in the latter ciuemassacre. This trek across the desert was so tedious and chocked with trite philosophical utterings, that we were pulling for the Indians to scalp the whole train plus the Warner brothers . . .

on Senator McCarthy, and was far from being shocked, as Mr. O. Burke, Class of 1945, seems to have been. Quite aside from the fact that I think Mr. Butler, whom I personally do not know, had some very good points in his article, why should a college newspaper, which represents a group of people with perhaps the widest and most varied range of interests to be found, be itself limited in

So long as it is of general interest to the student body, and I believe most students have heard of Mr. McCarthy, (and I don't mean Charlie) it should not be omitted just because it doesn't concern the campus. I too am very interested in what Mr. McCarthy will have to say when he no longer has senatorial protection.

Sincerely, Luther Raine

Dear Editor:

A few comments on your recent editorial citing the fact that the World War II vets all were the lack of funds here at the University and a need for a budgetary increase. I heartily concor with the efforts toward such an increase as do most of us the difference. Kentucky Koreau vets now pay only here at UK. However, recent news stories, your in-state fees. This does represent some loss. But editorial included, stressed minor points which we had several years to prepare for this and the need clarifying. I believe. I refer to your sentence people of the state should have realized that a in the editorial of Jau. 15 which said "Korean greater state university wasn't going to be built on veterans do not get their tuition paid by the gov-federal funds, local effort is needed now as it was erument, so the total income derived from federal needed before 1945. The G1 Bill merely served as sources must come from the rent collected from a finger in the dike.

Cooperstown and Shawneetown," Actually, Korean I too read Ronnic Butler's January 8th editorial veterans do get their toition paid by the govern- that many if not most of the residents in Shawneement; what you mean is that this trition, unlike the provisions of P.L. 16 and P.L. 346, is not paid directly to the school but rather a flat sum is paid the Korean vet and from this he must pay his tuition, books and board.

It was obviously the intent of congress that the tuition of the Korean yet be paid. The new method of payment was thought to be more satisfactory than the old in that it eliminated the possibility of . collusion between students and certain fictitious 'schools". The terms of the new bill do not seem quite as liberal as the uld World War II terms were after the subsistence allowance was raised but they are certainly as liberal as the terms were when I first enrolled under P.L. 346 right after World War II. UK's problem should be thought of as one in which we lack Koreau vets in as large numbers as was first anticipated, not that "the government doesn't pay their tuition".

It is true we are out some money by virtue of charged out-of-state tuition fees, regardless of where they came from, with Uncle Sugar paying

town and Cooperstown do not have their rent paid by the government. In other words, many residents do not now receive federal benefits. You don't have to be on the G.L. Bill to live there, you merely have to be a veteran. Some rent comes from lederal sources via the indirect means of subsistence allotments. Many others, including several faculty members, haven't bad any GI benefits for years.

Lastly, to concentrate solely on the legislature in our appeals for increased funds for UK is shortsighted, even if it is only an editorial technique. We can appeal to the governor and the legislature, to be sure, but we first must appeal to those who elect these people. UK students must be missionaries in their home towns, talking up the financial needs of their university. When Kentuckians get ready to be taxed more for education and learn to expect more from their University than great athletic teams we will get the financial help that we here at UK are asking for.

This plea cannot be separated from other pleas seeking to improve the elementary and secondary schools in the state. You first have to educate the citizens before you can direct appeals for money to them in any intelligent fashion. This state, while not so wealthy as some, is Lar Irom poverty stricken. It can support a good school system of all levels when its citizens get ready to pay for it.

> Sincerely yours, Gordon F. Lewis

N THE still of the night—high above a sleeping American city—an unidentified ancraft is spotted. In a matter of seconds a lightning-like jet interceptor tikes to the air. Unerringly, with an Aircraft Observer showing the with the Air Force F-94 Night Fighter speeds to intercept the stranger. The Aircraft Observer is the man behind the pilot -the officer who keeps America's planes flying on course and on target. Without him the Air I orce couldn't do its job.

What is the Aircraft Observer?

He's a Radar Officer . . . employing an all seeing eye that penetrates where human sight fails.

He's an Aircraft Performance Engineer Officer ... knowing everything there is to know about his plane . . . keeping it fit for the skies and ready for action.

He's a Navigation Officer . . . plorting his plane's course ... with an entire crew depending on him for a safe flight.

He's a Bombardment Officer . . . in full control of the plane over the target area . . . the Air Force Officer who "lowers the boom" on the enemy.

What the Aircraft Observer gets

de carns over \$5,000 a year. His silver Aircraft Observer wings give him prestige and distinction, and he wears the bars of an Air Force Lieutenant. They mark him as the eves, ears, and brains of America's Number One flying team.

What it takes to be an Aircraft Observer

The Aircraft Observer must be sound of limb, keen of mind, and above all, must have the determination to be the best.

to quality as an Aircraft Observer you must be single, between 19 and 261/2 years old, and a high school graduate. However, it will be better for you and the An Force it you stay in college and graduate before you apply. Then you, too, can be one of the best . . . as an Arcia t Observer.

Coach Adolph Rupp's cagers lace possibly their stillest test of the season tomorrow night, when they meet the DePaul Demons in Chicago. Ray Meyer, the coach of DePaul has made several choice cracks at the Wildcats, and indicates that the Demons will be out to beat the Cats any way that they can. This is definitely the biggest hurdle the Cats face in order to achieve an undeleated

Major college scoring hit a new high this week when Frank Selvy of Furman hit an even 100 points, as his team beat Newberry 149 to 95. The Corbin boy tossed in 41 field goals. Bevo Francis of Rio Grande was definitely overshadowed on the Sunday sport pages, as he only tallied 5S points. However, he and Selvy are the only players who have hit the century mark in college competition. The only way a player can hit such astronomical figures is to have the other players constantly feed him the ball. Also the team must let its defenses go, so that the other team will shoot, instead of holding on to the ball. Cliff Hagan, who tallied 51 points earlier this season against Temple, could probably hit high individual marks, if he was the only outstanding player on the team. When you have several good players and also have a strong defense, such as UK has, it is virtually impossible to set national records. Personally I will take a well-balanced team over

It is hard to figure out just what goes on in the minds of the o-called basketball experts. Last week UK was ranked first in the AP poll and third in the UP poll behind Indiana and Duquesne Then on Saturday night the Hoosiers were upset by Big-Ten rival Northwestern 100 to 90. This would indicate that this week the Cats would be first in the AP poll and second in the UP poll. Somewhere along the line, however, the experts got their wires crossed, and the Cats ended up in second place in both polls. Dugnesne, a team that was ranked second in both polls last week now rides in first place in both polls. This marked the first time in many weeks that the Cats have not been ranked in first place in al least one of the two major polls. No one knows what supposed logic the various members of the poll use, but one thing is certain, they are definitely inconsistent.

Ralph Paolone, UK's great fullback of the past season, has been signed by the Philadelphia Eagles of the National Football League. Also the Minneapolis Lakers of the National Baskerball Association have acquired the draft right to Bobby Watson, Jorner UK star eager, who is now in the Air Force.

Coach Blanton Collier is presently assemblying a fine coaching stall for the UK grid team. The first two coaches he named were Ermal Allen and Clarence "Buckshot" Underwood, who were outstanding assistants under Bryant. Then this week he announced the addition of Matt Lair and Bill Arnsparger to his stall. Lair needs no introduction to Wildeat lans, as he is a former UK grid der himself. Arnsparger, an assistant at Ohio State last year under Woodie Haves, played is college hall at Miami University of Oxford, Ohio. He is a fine scont and has been an assistant at Ohio State for the past three seasons. While at Ohio State, he served as the offensive line coach. Collier says that Arnsparger is one of the finest young line coaches in the country today. Lair, who played guard at UK under Bryant, was head coach last year at Selma, Alabama, Both Lair and Arnspärger are Irom Collier's home town. Paris, Ky. Two positions still remain to be lilled on the coaching stall.
